

Many students have been getting an error about "too many redirects" blocking their access to Gmail. To clear this problem, you need to clear your browsing data in Chrome. Here's how.

1. Close and re-open Chrome.
2. Click on the 3 dots in the upper right corner of the chrome screen. Then click "Settings"

3. Type the word "clear" in the blue search box at the top of the screen.

4. Scroll down a little bit and click on "Clear browsing data"
5. In the next screen, select "All Time" for the time range, check the 3 checkboxes, then click the blue "Clear data" button.
